WAS HEAD OF CONSPIRACY

Capt. von Papen, Former German Military Attache, Under Indictment

PLOTTED TO BLOW UP WELLAND CANAL

Federal Officials Do Not Expect to Bring Him to Trial, as He Is In Germany — Other Prominent Men Also Held for Trial.

NEW YORK, April 18.—Capt. Franz von Papen, recalled military attache to the German embassy at Washington, was indicted by the federal grand jury here yesterday as the organizer, and financier of an alleged conspiracy to blow up the Welland canal in Canada. With him were also indicted Capt. Hans Tauscher, alleged agent of the Krupp in the United States and husband of Mme. Johanna Galski, the prima donna; Constantine Gowan, Alfred J. Fritzen and another whose name has not been revealed. It was learned from a reliable source that the latter is a prominent German whose name has been mentioned frequently in connection with German propaganda.

Federal officials do not expect to bring Von Papen to trial. While he is no longer immune from prosecution by the United States civil authorities, since he ceased to be a member of the German embassy staff, the offense with which he is charged is not extraditable under any treaty with a foreign government.

The indictment charges, in addition to the Welland canal plot, that it was "the purpose and intent of the defendants to blow up and destroy other property in Canada." Von Papen was designated by federal officials as the "brains" of the alleged conspiracy. It is alleged in the indictment that he, with the others, "began, set on foot, provided and prepared the means for a certain military enterprise to be carried on from within the territory and jurisdiction of the United States against the territory and dominions of the king of Great Britain, with whom the United States at all times mentioned was and is at peace."

The other three men whose names were made public were, according to the indictment, mostly agents and employees of Von Papen, who planned the conspiracy and furnished the money and high explosives. The five men alleged to have carried dynamite and other explosives in suit cases to Niagara Falls, where the plot was abandoned, were Horst von der Goltz, alias Franz Hobart Wachendorf, alias Bridgman Taylor Fritzen, Gowan, Carl Tushander and Joachim Basse. Von der Goltz, who was later arrested in England, returned to the United States accompanied by a detective from Scotland Yard, and gave important testimony to the government at New York.

John T. Ryan, an attorney and prominent in politics in Buffalo, N. Y., was named in the indictment as the man who acted as intermediary in the payment of money by Von Papen to Von der Goltz. On two occasions in September, 1914, it is alleged, Von Papen paid \$200 to Von der Goltz through a Buffalo bank and Ryan. A previous payment of \$200 also is said to have been made to Von der Goltz. Checks and checkbook stubs of these transactions are in the possession of the United States attorney.

Capt. Tauscher, head of the Tauscher arms company at New York, supplied the explosives to Von der Goltz. The indictment charges, while Von Papen furnished "electric generators, fuses and wires." In August, 1914, according to the indictment, five sailors from the interned German liner Bavaria, at Baltimore, were brought to New York by the alleged conspirators to aid in the plot, but they were subsequently returned to their ship. Arrangements then were made, it is charged, for the five men named in the indictment to undertake the expedition.

Asia has many high mountains, but has fewer large waterfalls than any other continent.

MAINE BEAVER ARE SAVING THE TROUT

Their Ponds Form Ideal Homes for Fish—Animals, Protected by Law, Rapidly Increasing.

AUGUSTA, Me., April 18.—Members of the inland fish and game commission are coming to the opinion that one of the valuable aids to fish propagation and conservation is the beaver.

In 1893 there was a law passed making close time on beaver. At that time only a few were left. Protected by law, however, beaver rapidly increased and today are quite numerous in many sections of the state. Hundreds of small streams are dammed and millions of gallons of water are held in storage. Pools are made which form the natural home of trout and many a stream which would otherwise go dry early in the season has plenty of water, thus saving thousands of small trout. It is realized that in some sections beaver do considerable damage to standing timber, but when compared with the benefit of additional water storage, the damage is looked upon as negligible.

These animals are of great interest to the summer people and some of the ponds they have created have furnished a good supply of ice for neighboring farmers.

PROF. CHERRIE GOING TO SOUTH AMERICA

Sails May 10 for Data to Complete Scientific Report of Roosevelt Brazilian Expedition.

Prof. George K. Cherrie went to New York yesterday afternoon from his home in Newfare to perfect arrangements for another extended trip to South America in the interests of the American Museum of Natural History. He will return to his home in Newfare for a further stay of 10 days and will sail from New York May 4.

Prof. Cherrie has been at work all winter on the scientific report of the results of the Roosevelt Brazilian expedition and his prospective trip to the same countries will be for the purpose of obtaining data to complete his report. He plans to be gone several months.

SUIT FOR \$25,000.

Charles Barclay Claims Company Failed to Provide for Safety.

MONTEPELIER, April 18.—Charles Barclay of Williamstown has brought suit in Washington county court against the Wetmore-Morse Granite company for \$25,000 damages, alleging that the company was negligent in failing to provide for his safety while he was employed as powder man at a quarry in Graniteville owned by the company. Barclay, according to the specifications in the suit, lost his eye and hearing and his right arm was permanently injured when a stone exploded prematurely by a blast falling on explosives. S. Hollister Jackson of Barre is his attorney.

Robert Columbo and Lucy Columbo of Barre are made defendants in a \$1,000 suit entered by Henrietta Guozoni, who claims that the Columbos abused her verbally and that when she showed them the door the man held her while the woman pulled her hair, pounded her and threw at her a stove lid and coffee pot.

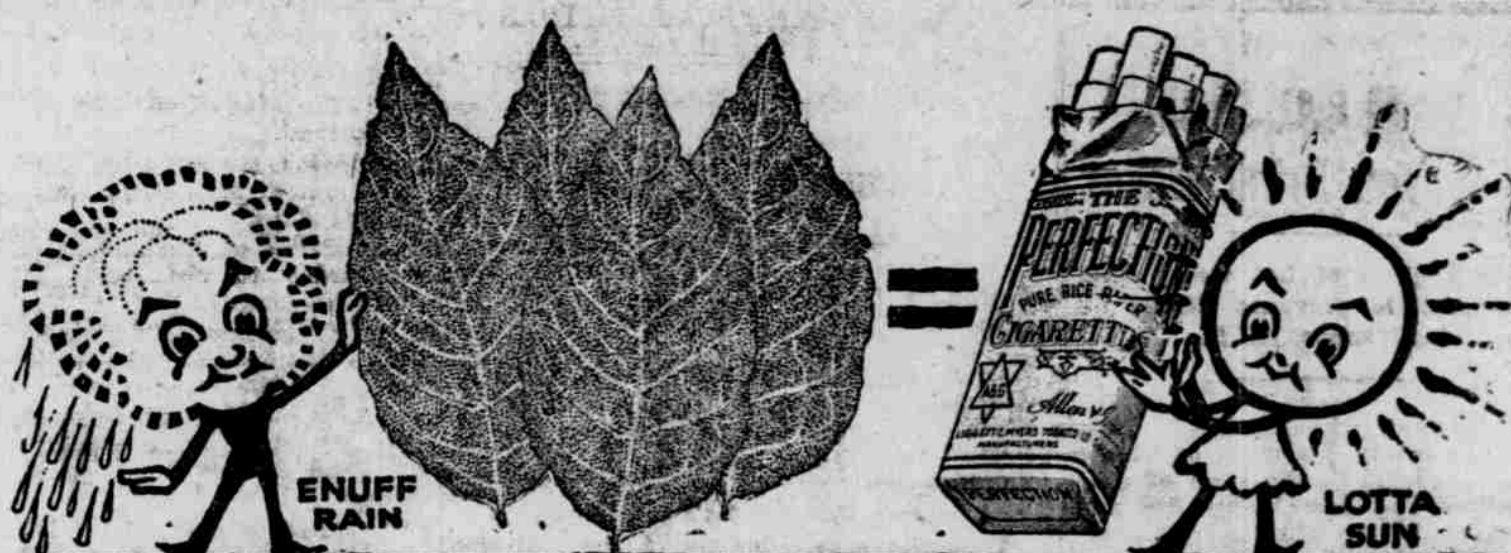

DUTCH DEMAND ON ENGLAND.

Indemnities Asked for Detention of Mails—Similar Protest to France.

BERLIN, April 18.—A second protest against detention of mails by the British authorities, with a demand for indemnities, is said by the Overseas News agency to have been made by the Dutch government. The Dutch note is in reply to the memorandum addressed by the entente allies in answer to the complaint of neutral countries with respect to the delaying of mail.

The Dutch government refers to the assertion in the communication of the allies that the German and Austro-Hungarian naval authorities are responsible for the destruction of various mail boats without warning, and replies that the mail lost in this manner was destroyed in consequence of acts of war, and not by unlawful interference with mails. Holland points out that the British government has detained a large quantity of mail, including registered letters containing values. It demands restitution of the detained letters and indemnities.

A similar note, the news agency says, has been sent by Holland to France.

NATURALLY GOOD TOBACCO does it!

All the experimenting in the world couldn't improve the natural flavor of the tobacco in Perfection Cigarettes.

So—we give you this tobacco exactly as delicious as NATURE made it.

Naturally good—don't forget that—crowded full of its own original mellow-ness and refreshing, sprightly taste.

Perfections are unusual—simply because they're
